HOW TO PERFORM FIRST AID

- If you find an ill or injured person, you must check the area around him/her first to make sure it isn't dangerous. Then move closer to the person and look carefully at them. Do they seem to be very ill? Do they have severe injuries?
- If the person is awake but not bleeding, you have to ask them how they feel and what happened. Check their body for signs of injury or infection. You don't have to touch the person's body to do this.
- 3 If the person doesn't reply, touch their shoulder or their foot and shout to see if they react, and remember to check for normal breathing.
- If the person isn't breathing, someone must call the emergency services immediately.
- If you know how to perform CPR, you have to do this to help the person start breathing again. However, you mustn't do CPR unless the person is lying on their back on a flat surface such as the floor.

Place your hand on the centre of the person's chest. Put your other hand on top of the first hand and lock your fingers together. Make sure that your shoulders are above your hands.

Step 1

Step 2

Step 3

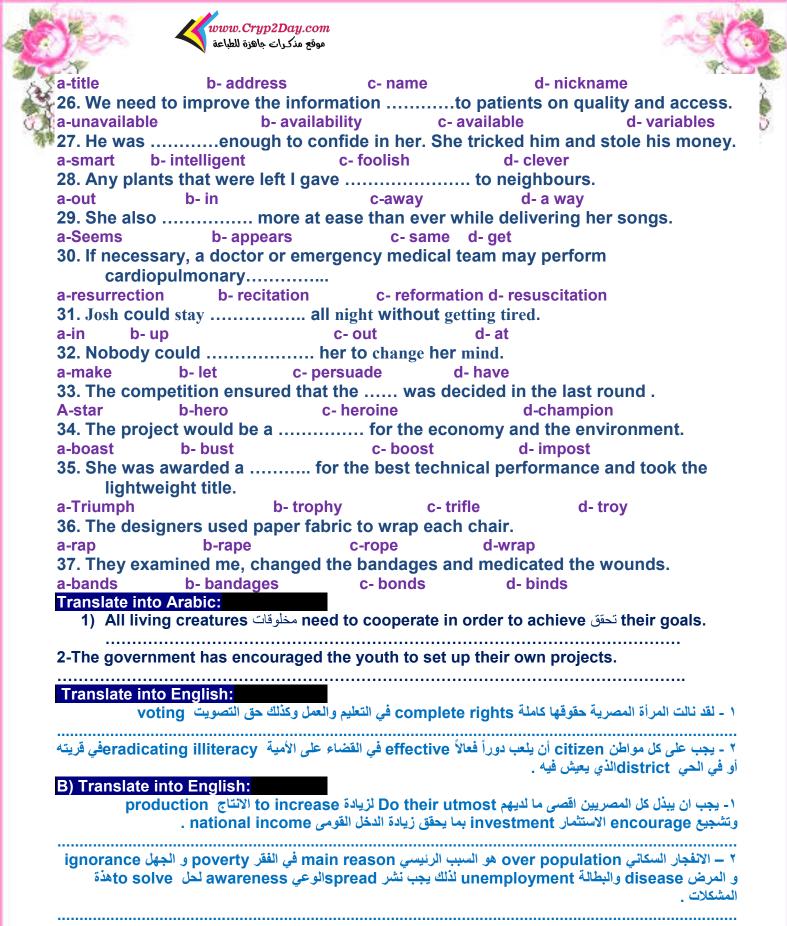

You don't have to press down on the person's chest very much – only five to six centimetres. Keep your hands on their chest and allow it to rise up again. You have to do this 100 to 120 times a minute until the person starts breathing again.

"Let us laugh," says, W. Mathews, "it is the cheapest luxury man enjoys. It stirs up the blood, expands the chest, clears away the cobwebs خيوط عنكبوت from the brain and gives the whole system a healthy treatment." So is it nice to laugh a lot? It is said, "Laughter is the best medicine." For those who dislike medicine, sweet or bitter, a good joke that provokes المنافية laughter is prescribed. It is nice to have a good laugh but a "guffaw" ههقهة may sometime lock one's jaws فالمنافية and so it is suggested that those who enjoy a loud guffaw go

slow and subside فرقره into a gurgle قرقرة. And finally, I feel that I should smile, laugh heartily (without the predicament جزعلي الاسنان of lockjaw جزعلي الاسنان) and be able to enjoy all jokes including ones directed at myself. But never making a laughing stock of myself in the process. Let us remember the wise saying, "He is not laughed at that laughs at himself."

Reading: An old fashioned thanksgiving

In September 1620, a ship called the Mayflower arrived in North America with 102 passengers. Many died, but some were able to grow food and survive with help from Native Americans.

Thanksgiving is a day when families get together to remember these events. It is celebrated in the USA every year on the fourth Thursday in November In 1882, Louisa M. Alcott wrote a short story called An *Old-Fashioned Thanksgiving*. Here is an extract

When they woke, there was still a large **amount** of snow outside. Tilly made a good breakfast for the seven children.

"Now, about dinner; she said as they all finished eating. "Ma said that we could have whatever we liked, but she didn't expect us to have a **traditional** Thanksgiving dinner" "Have you ever cooked a turkey?" asked Roxy

"Ma said I should decide what to do," replied Tilly . All you children have to do is keep out of the way, and **let** Prue and me work"

The younger children walked out of the kitchen and into another mom. As Tilly and Prue started to **prepare** *the* big meal, they got out all the spoons, dishes, pots and pans that they could find.

"Now, sister, we'll have dinner at five," said 'Filly. "Pa will be here by that time and he'll be surprised to find us ready to serve the food. There's such a lot to do, and I'm a bit worried about the turkey. It's so big. I know: said Prue. "I fed it all summer and now it will feed me, she laughed.

Writing an essay

Read this essay about the future of farming. Why will there be less land for farmers in the future?

- **This essay will focus on** the future of agriculture.
- First, I will explain the reason why agriculture needs to change. After that we will look at several ways that agriculture could change. Finally, I will give my opinion on what farmers should do to prepare for the future.
- The Earth's surface is heating up and soon there will be less land that farmers can use.
- In the case of Africa, the continent could lose up to 18 percent of its farm land in the next fifty years. As a result, farmers will need to farm their and even more efficiently.
- **Due to the fact that** there will be less land available for agriculture in the future, farmers will need to grow a greater variety of crops. Evidence suggests that keeping livestock will not be sustainable and we may start the production of new sources of food, like algae, instead.
- In my view, farmers should see this is as a chance to try new things and to start using new technology, such as robots, on their farms, They should start doing this immediately so they're prepared for the future.
- **To conclude**, agriculture is clearly going to change a lot over the next few decades

* Reading: The future of farming

According to the United Nations, there will be almost 10 billion people in the world by 2050. As a result, we will have to increase our food production by about 70 percent. However, farmers do not have space to keep more livestock and grow more crops. Instead, they'll need to look for more sustainable solutions and this will involve producing a wider variety of food.

How would you feel about eating a burger that was grown in a laboratory? Scientists think that it could be more sustainable than keeping livestock. Some of the people who have eaten these burgers say that they can't tell the difference between the new burgers and real meat.

Researchers from the United Nations have found that some kinds of agriculture are seriously damaging the land. This is not

sustainable. If farming continues to cause so much damage, there won't be enough and left for food production. In Europe, most of the damage is due to farmers using too many chemicals, so they will need to find new ways to help their crops grow. In southern Africa, the problem is that there is too much rain in the summer. In the future, we can expect that farmers in southern Africa will be using innovations in technology to remove water from the land and use it elsewhere.

Reading: text messaging

Plz read this article ASAP. It's gr8. Hope u it! For any readers who can't understand the language of text messaging, the translation is: Please read this article as soon as possible. It's great. f hope you like it.

In text messages, **abbreviations**, **emojis** and numbers are all used to make communication quicker. The language of text messages doesn't require correct spelling, or difficult grammar and punctuation.

Messaging language is appearing in everyday English more often. When people write emails, many of them use a lot of abbreviations and emojis. Some people use less punctuation, but others use more than they need!!!!!!

So, is messaging language damaging English? Messaging language may be fun to use with friends, but it isn't suitable in **format** emails. And now teachers are worried that some teenagers are no longer able to speak or write using English correctly. However, some **linguists** suggest that the people who use messaging language are actually language **innovators**, introducing new ideas into English. They argue that messaging language is quick, short and communicates a lot in a small space.

Whether or not you like messaging language, English is continuing to change. Perhaps it would be a good idea to learn some of the basic abbreviations so you can enjoy talking to your friends with fun, short messages!

Shakespeare and the English language

language is always changing, and new words are created all the time. We need new words to describe new technology, ideas and situations. For example, before people took photos of themselves on their phones, we didn't need a word for that. But when everyone started doing it, the word 'selfie' became very useful, and it was added to dictionaries in 2013. Many famous dictionaries add new words every year, and sometimes they remove words and phrases that we don't use anymore. Shakespeare was a great innovator with language, and he added more words and phrases into the English language than anyone else. He made new words by changing verbs into adjectives, changing nouns into verbs, and connecting words to make new words He also-added <u>prefixes</u> and <u>suffixes</u>, for example, he created 'uncomfortable' from 'comfortable.'

Today the language that Shakespeare used can sound difficult, but he was writing in a way that made his stories easy for people to understand at that time.

Like messaging language, Shakespeare made new words from other words that everyone already knew. Then he used his words to describe the things that people most wanted to talk about.

Read the following passage and answer the questions:

Have you ever heard someone use the phrase "once in a blue moon?" People use this expression to describe something that they do not do very often. For example, someone might say that he tries to avoid eating sweets because they are unhealthy, but will eat chocolate "once in a blue moon." Or someone who does not usually like to go to the beach might say "I visit the shore once in a blue moon." While many people use this phrase, not everyone knows the meaning behind it.

The first thing to know is that the moon itself is never actually blue. This is just an expression. The phrase "blue moon" actually has to do with the shape of the moon, not the color.

As the moon travels around the earth, it appears to change shape. We associate certain names with certain shapes of the moon. For example, when we can see a small part of the moon, it is called a crescent moon. A crescent is a shape that looks like the tip of a fingernail. When we cannot see the moon at all, it is called a new moon. When we can see the entire moon, it is called a full moon. Usually, there is only one full moon every month. Sometimes, however, there will be two full moons in one month. When this happens, the second full moon is called a "blue moon."

Over the next 20 years, there will only be 15 blue moons. As you can see, a blue moon is a very rare event. This fact has led people to use the expression "once in a blue moon" to describe other very rare events in their lives.

- Using the passage as a guide, it can be understood that which of the following sentences does not contain an expression?

Reading: Doing research online

Your teacher has given you a homework task. Where do you start your <u>research</u>? The internet is very <u>useful</u> with lots of information, but how do you <u>avoid</u> <u>spending</u> hours reading <u>unhelpful</u> websites? Read

on to find out how to use the Internet **effectively**.

- 1- Look for websites by people, or universities, who have experience in or knowledge of the topic you are researching. If you know who wrote the website, try to **find out** more **about** their experience.
- 2- Think about who has written the website, Is it a company;;ej who may be trying to sell you something?
- 3- Check if the website is **up-to date**. Is the information still **reliable** and useful? When was it **updated**?
- 4- Always **consult** more than one website. The advantage of looking at few different sites is that you can check the information and you may find extra facts.
- 5- What does the website look like? If it is badly designed and is full of grammar and spelling mistakes, then it is probably not very reliable.
- 6- Websites that have named their **sources** are usually more reliable and useful than sites that do not name their sources.
- 7- Save the <u>URL</u> (<u>uniform resource locator</u>) of any useful pages or images so you can find them easily.

Targeted advertising

Our computers and smartphones keep small pieces of information called **cookies**, which tell websites where we've been online and what we were looking at. Cookies are meant to make it easier for us to find things that interest us, but they also help advertisers to sell things to us. So, when we see an **advert** for something that seems to be exactly what we want, it is because **advertisers** know what we like. This kind of advertising is called **targeted advertising**.

Sometimes **advertisers** know where you like to go and when you like to do things, so they can advertise to you when you are most interested. For example, they advertise places to eat when you're hungry. They can also send adverts to your friends at the same time if they think you'll go together.

Sometimes it's easy to see that something is an advert, like those large **banner adverts** that always seem to appear on websites when you're trying to read. And there are adverts that seem to appear in the strangest places, like the small **sponsored adverts** that you find in **search results**.

Adverts **are supposed to** be honest, but we must be careful. When you see an advert online, think about why you might be seeing it and whether you can believe what it says.

2. Read the following passage and answer the questions:

Marcia says that all of her friends have a cell phone, but Marcia's mom doesn't want to buy her one. Marcia's mom doesn't want Marcia to play video games either. What is more, the Internet scares her. Marcia's mom says, "If Marcia has a cell phone, how do we know whom she is talking to? Video games are bad for you. The Internet is dangerous and uncontrolled. It's like having a gun in the house. We should just ban her from using the computer, and I'm not buying her a cell phone until she is eighteen. This is the only way we can be sure that Marcia is safe."

Marcia's dad disagrees with Marcia's mom. Although he agrees that there are some dangers to it, he likes the Internet, and finds it to be very useful. "The trouble is," he says, "We just can't stop Marcia from using the Internet, as this would put her at a disadvantage. What is more, I like video games. There was only a small fire and it was very far away. "It's late. Can I go home, Mr Scrooge?" Bob **begged**. Have you finished your work?' asked Scrooge.

Bob looked at the **enormous pile** of work left to do and **sighed**.

"You can't go home if you don't finish your work," continued Scrooge.

"If I finish all this work tonight, will you let me come to work a bit later tomorrow morning?" asked Bob .No," said Scrooge.

Suddenly the door opened and Scrooge's **nephew**, Fred, came into the office. He gave his uncle a **friendly smile**.

"Bah!" said Scrooge, 'Why are you here? And why are you so happy? You're poor. What have you got to be happy about"?

"If you are so rich, why are you so sad? replied Fred. 'Perhaps if you were poo ke me, you'd be happy like me, too".

"Have you come to ask me for money? asked Scrooge in an unfriendly tone. 'No," replied his nephew. "I've come to invite you to dinner'.

"Bahr said his uncle.

And if he hadn't cared about money so much, he would have **treated** other people better. Then he would have had more friends, and he wouldn't have felt so alone. But now he would change. He ran to his window and saw a boy in the street. 'You! Boy!' he **shouted out of** the window. "Do you know the butcher's shop?"

Yes, Mr. Scrooge,' shouted the boy. He was surprised to see Mr. Scrooge smile.

"I want you to buy the best food and take it to Bob Cratchit's house as a **gift** from me to his family. Will you do this for me if I **pay** you?'

Of course.' said the boy and then he **ran off** before Mr. Scrooge **changed his mind**. Scrooge went out in the street and said. "Good morning," to all the people he met and he **smiled at** them. Everyone **was surprised to see** Mr. Scrooge smiling, but they replied, "Good morning, Mr. Scrooge." and that made Scrooge very happy.

Then he went to his **nephew's** house and asked if he could have dinner with him. Of course, his nephew smiled and invited him to come inside,

2. Read the following passage and answer the questions:

The fantastic Selous Wildlife Park in the south of Tanzania is the largest wildlife area in the world and a great place to see lions, elephants, giraffes, crocodiles and other wild animals. We stay in comfortable accommodation by the Rufiji River. From there we can drive into the park to look at the wildlife and take boat trips along the river. When it is dark, we can watch the animals come down to the river to drink. Then we fly to the island of Zanzibar. Here we can wander through the narrow streets of the old town with **its** beautiful mosques and busy markets. We spend our last few days relaxing on Jambiani Beach, where we can go swimming and diving. This 14-day-holiday costs only £1,500 per person. Flights, all other travel and meals are included in the price.
